

**TRANE®**

## SELLING YOUR HOUSE? INCLUDE THE WARRANTY.

Your reliable Trane system may help you sell your home. During either the 60-day Product Registration Period or within ninety (90) days following the sale of the home (if such 90 day period is still within the Registered Limited Warranty period) you have the opportunity to purchase a Registered Limited Warranty Transfer Option\*\* which may allow the balance of your Registered Limited Warranty to be transferred to a subsequent homeowner.

For more information on this option, please call 855-260-2975

\*\*The Registered Limited Warranty transferability option is available for a \$59 fee during the initial 60 day Product Registration period. If purchased outside of the Product Registration Period, but within the 90 days from the sale of your home when the Registered Limited Warranty period is still in effect, a \$99 fee will apply. Regardless of when the transferability option is purchased, either you or the new homeowner must notify Trane of the transfer within ninety (90) days of the home sale for the transfer to be effective. Failure to complete the limited warranty transfer by such notification within 90 days of home sale will result in the limited warranty expiring on the date of home sale. Transferability restrictions may vary by state.
